

Daily Grades

Grading Student Work

Each working day, students will record their activities. There will be 20 points possible per day, which conceivably means that there will be 40 points or 60 points possible per week.

Your daily grading will be broken down into four areas:

1. Meets deadlines
2. Follows rules
3. Maintains positive attitude
4. Uses class time wisely

Your grade will indicate if you have not performed up to par in one of the above areas. THERE IS ALWAYS SOMETHING TO DO IN YEARBOOK. Whether it be working on your section, helping someone else, looking through magazines for ideas, phoning businesses for ads, you will always have something to occupy your time that is yearbook oriented. DO NOT WORK ON OTHER SCHOOLWORK IN CLASS. This will result in a breakdown in teamwork, a poorer quality production, and a bad grade for you. Yearbook is teamwork.

An example of a daily tracking chart grade may look like this:

Monday

10

Meets deadlines: 5 (sold all ads up until the date specified)

Follows rules: 0 (Left class without permission or left equipment, photography

materials, magazines, lunch items, etc., out after the bell)

Maintains positive attitude: 2 (Whined when asked to help)

Uses class time wisely: 3 (Did math HW for 15 minutes)

As you can see, 10 out of 20 is not exactly a perfect score. the idea is to stay on task and to be a good team player. Keep in mind that our ultimate goal is to LEARN all we can about producing a great yearbook!
